STEAM SYSTEM

More than just a steam station, Modbar Steam delivers a minimal, modern aesthetic coupled with power and control. Give your customers a full view of their drink being prepared, from espresso pull to rosetta.

STEAM SYSTEM

Recreate a traditional espresso machine with two Steam taps next to your Modbar Espresso, or set up distinct service areas to suit your workflow. Cafes can add a Steam tap or two to boost throughput, rather than purchasing a second full espresso machine.

SPECIFICATIONS

- double wall pro touch wand
- chromed tap
- ergonomic handle designed to match Espresso AV
- custom handle finishes walnut (standard) or maple
- omnidirectional ball fitting
- minimal purge required with no steam valve rebuilds
